## **IV Workshop Dr M-J DESHAYES**

**Date:** September 2018, 27<sup>th</sup>-28<sup>th</sup>-29<sup>th</sup>

**Cost:** 1300,00€ until June 30<sup>th</sup>, after 1400,00 vat included

**Location:** STARHOTELS Cristallo Palace Bergamo  
Via Betty Ambivery, 35  
24126 Bergamo (I)  
+39.035.311211  
[www.starhotels.com](http://www.starhotels.com)

**Language:** English with translation in Italian

### **PROGRAM**

#### **Day 1.**

*Morning. How to define the Cranio Facial Biodynamics.*

The main lines of development of the cranial base and its impact on facial development: the guide to look at the face. Forecast of facial growth. Establishment of the functions according to the cranial background. Interest of early orthopedic treatment before the eruption of M1.

*Afternoon. Setup of the strategy of treatment.*

Level 1: why we use the USP (Unlocking Sliding Plates) in lacteal dentition? How to foresee the sequence of screws?

Level 2: how to define the priority objectives and the deliverable?

## **Day 2.**

*Morning. Summary of the morphological evolution of the glenoid cavity and the establishment of the masticatory function: the best "key driver" to chew.*

Temporal kinetics and its repercussion on masticatory function. Analysis of a set of cases sent by the participants. Their predictable evolution under treatment.

*Afternoon. The main features of craniofacial asymmetry that call to mind.*

The best choice of symmetrization depending on the type of asymmetry, the age of the child, the difficulties leaded by the cognitive implication.

A summary of asymmetrical cases sent by the participants.

## **Day 3.**

*Morning. Therapeutic tools appropriate and suitable for treatment in lacteal dentition.*

The 1st rational straightforward project. The second judicious project. The long-range planning.

*Afternoon. The study of clinical cases sent by the participants.*

*Conclusion.*
